

Courtney Goss, Voluntary Agency Liaison, Disaster Recovery Task Force, Texas Division of Emergency Management

- Estimated 190,000 outages, top 6 counties with more than 10,000 outages are Travis, Bell, Dallas, Angelina, Tarrant and Williamson
- Trucks should start moving more today and TX DOT is escorting to treat the roads.
- 512-243-4337, [Courtney.goss@tdem.texas.gov](mailto:Courtney.goss@tdem.texas.gov)
- The Governor announced a statewide effort to collect damage assessment data for this unprecedented event <https://arcg.is/uOrOb>
- This information is being collected to help officials across the state gain an understanding of damages for individuals throughout Texas. EMCs will have direct access to all reporting via WebEoc on the Recovery Common Operating Picture Board.
- Our objective in this effort is to demonstrate the scale of this disaster at the local level. As such, this will be a local effort with support from the state. Consider pushing out the access link and QR code on social media for the best results. Our previous use of this product has yielded excellent results in multiple large disasters. With this detailed information, we will be able to demonstrate the total impact statewide.
- Feel free to use your local seal or office name with this distribution. The success of this effort will assist the local jurisdiction with the eligibility to potential federal programs.
- Courtney Goss confirmed that it is acceptable for case managers and/or volunteers to use the same device for multiple self survey entries
