EMERGENCY NEED TYPE Em..

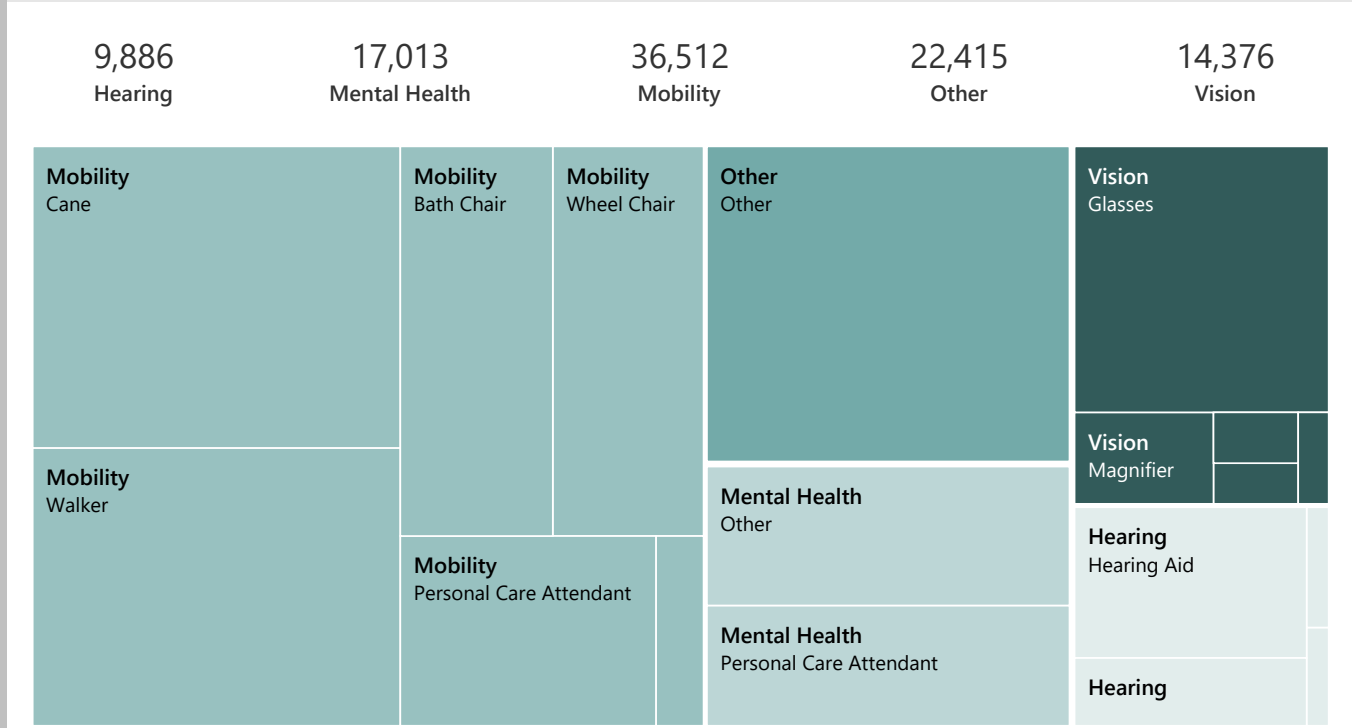

[Survivor Needs Dashboard](#)

ACCESS AND FUNCTIONAL NEEDS (AFN)

[Disability Integration Dashboard](#)

There are 54,561 registrants with Access and Functional Needs

Note: this data cannot be edited in the system once entered, so if a registrant's need changes and/or they do not end up using the AFN aid that is given to them, that does not affect the data being shown here. In addition, the wording of this question changed on May 2, 2019 from asking whether a registrant had an AFN need due to the disaster, to whether the registrant had an AFN need in general – this will cause users to see a difference in reporting numbers after that time.
